SEYMOUR, INDIANA, FRIDAY, JUNE 20, 1919.

PRICE TWO CENTS.

LOCAL TAX RATES WILL BE REDUCED

Estimated That Total Levy in Seymour May not Exceed \$2.25 Under New Appraisalment.

LOWER AVERAGE FOR STATE

Final Figures Cannot be Computed Until Board of Review Has Finished Its Work.

A tax rate of \$2.25 for property owners in this city under the new method of appraising property, is predicted by some men who are following the work of the board of review. The present rate is \$4.02 per hundred dollars. It was expected that the appraisements would be at least doubled so that the tax rate under the new law would not be more than one-half the old rate or \$2.01. However, some property was not listed at twice its former appraisalment but as other property was taken at more than twice its assessment last year, the total is expected to show about \$6,500,000.

It is believed that the appraisalment of farm lands will be about doubled under the new taxing plan. The total appraisalment last year for the county was more than \$16,000,000 and it is expected to reach \$28,000,000 at least this year. While the appraisements in all townships and other taxing units are considerably higher the rate will be reduced correspondingly. The new law provides that the revenue raised under the new assessments for 1920 cannot exceed that which was collected for this year under the old appraisalment method.

Fred Sims, chairman of the state board of tax commissioners, estimates that the average levy of \$3.12 per hundred dollars in Indiana will be reduced to \$1.10 or possibly \$1. He figures that the total appraisalment will be at least three times as great as the present total which would be a corresponding decrease in rates. The total appraised value of property in Indiana under the old plan of taxation was \$2,225,000,000 and Mr. Sims believes that it will reach \$7,000,000,000 this year.

Final figures as to the tax rates for 1920 for the city and the other taxing units in Jackson county cannot be announced until the work of the board of review is completed. The matter of fixing levies at this time is largely guess work, it is pointed out, as changes are being made every day in assessments and these vitally affect the figures for the county.

The value of the new law which has been the subject of much criticism as well as commendation, will not be positively known until the tax rates are fixed under it for the first time. The purpose of the law, it is said, is to equalize the burden of taxation as far as possible and if this is done the cost to some property owners will be increased, while others will be benefited by lower taxes.

WATCH CONTINUED FOR ARMY WORMS

A. E. Murphy, Agricultural Agent, Asks That First Appearance of Pest be Reported.

HEAVY DAMAGE ELSEWHERE

Farmers in Henry and Delaware Counties Aided in Fight by Federal Representatives.

Because of the great damage that has been done in eastern Indiana counties by the army worm, farmers in Jackson county are advised by A. E. Murphy, county agricultural agent, to keep a close watch for the appearance of the pest and to report to him promptly if any of the worms are seen in this vicinity. The agricultural department of Indiana, which includes all county agents, is working in co-operation with federal agricultural experts and farmers in an effort to check the advance of the pest and to rid the state of them as soon as possible. Damage estimated at hundreds of thousands of dollars has already been done by the worms.

Thus far Jackson county has been fortunate in escaping army worm in invasion and it is believed that the situation is so well in hand that notice can be given farmers in this part of Indiana if there is danger of the pest moving in this direction. In a few places worms which have damaged grain crops, particularly corn, have been found but an investigation revealed that they were not army worms. It is thought now that the damage can be limited to the area where the pest first appeared and that the situation can be controlled.

Local farmers have been interested in the manner in which the farmers in eastern Indiana have combatted the pest. Trenches one side of which were perpendicular were dug around fields and a poison bran mash has been used effectively in other places. Gasoline torches were used by the score in fighting the pest and were found to be effective. Hundreds of torches were shipped into Henry county for this purpose. Farmers have organized into shifts and the work continues night and day. The pest is particularly active and destructive at night, federal agricultural experts declare.

It is estimated that the damage in Delaware county alone where 3,345 acres of grain and meadow were destroyed will reach \$100,000. A loss almost as great has occurred in Henry county and it is estimated that crops to the value of \$250,000 have been destroyed in Grant county. Other counties in that section of Indiana have suffered smaller damage.

Army worms have been found in a few localities in Bartholomew county, but the damage is not serious. The farmers feel sure that they will be able to battle the pest unless the number increases rapidly. Decatur county farmers have organized to fight the worms.

WARM DAYS MAKE SWIMMING POOL A POPULAR PLACE

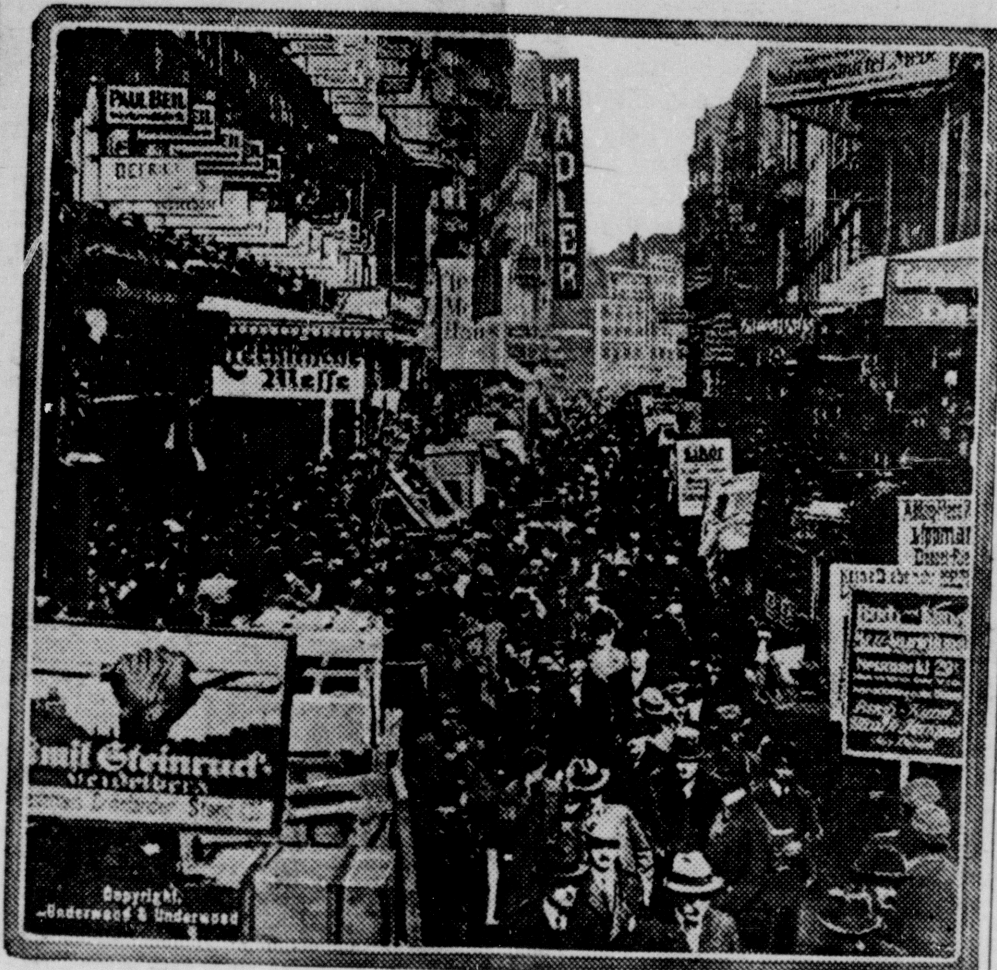

Many Boys Lured to White River Where the Water is Deeper and More Dangerous.

The warm weather which has prevailed for the past few weeks has made swimming very popular. Every afternoon and evening for the past week large crowds have been enjoying the sport afforded them in the swimming pool at Shields park.

Many boys who pride their ability as swimmers too much to go in the swimming pool are being lured to the river where deeper and more dangerous water can be found. Reports of narrow escapes from drowning have already been received but as yet no lives have been lost in Jackson county this season. A large crowd of boys gather every afternoon and evening at the railroad bridge across White river at Rockford where the water is deep, while many local boys have other favorite haunts where they take a plunge in the stream.

STOLEN AUTO IS RECOVERED HERE

Alleged Attempt by Boy to Evade Gasoline Payment at Scottsburg Results in Arrest.

CARL HARRICK IN CUSTODY

Lad Said to Have Admitted That He Took Machine at Louisville—Police There Notified.

An alleged attempt by Carl Harrick, aged nineteen years, of Louisville, to evade payment for gasoline at Scottsburg, where he had the tank on the automobile which he was driving refilled, resulted in his arrest here Thursday night, charged with theft of the car. Harrick, who was driving alone, was overtaken at Farmington, two miles south of here, by Jesse Walker, marshal at Scottsburg, and the owner of the garage where the gasoline was obtained. At that time it was not known that the machine was stolen and the garage owner took possession of an extra tire as security for the gasoline. He returned to Scottsburg and the marshal rode to this city with Harrick.

The automobile was identified as belonging to B. H. Strauss, a merchant at Louisville. The initials "B. H. S." were painted on the doors. Strauss and a driver, accompanied by Marshal Walker came here from Scottsburg this morning. The car was driven to Louisville this afternoon. Harrick was taken to Scottsburg by Marshal Walker Thursday night and this morning was returned to Louisville. He was given a preliminary hearing and was bound over to the grand jury.

According to the story that was told to the local police, Harrick and two boys drove the machine from Louisville early Thursday night. Harrick's companions, it is said, left the machine near Sellersburg, while he continued on his way to Indianapolis.

The car is a big seven-passenger Cadillac and the gasoline supply was

WEEKLY CONCERTS TO BE GIVEN AT SHIELDS PARK

First of Series Rendered Thursday Evening—Large Crowd in Attendance.

Arrangements have been made with the Seymour concert band to give a series of concerts at Shields park each Thursday evening during the summer months and the first was rendered last evening. The expense of the concert is being defrayed by local business men.

A large crowd was in attendance at the opening concert Thursday night and it is predicted that the remainder of concerts will draw larger crowds considering the fact that it has not been generally known that arrangements had been made for holding them during the week.

BERNSTORFF MAY BE NAMED FOREIGN MINISTER

The Hague Dispatch Says That New Cabinet Will Be Selected Tonight.

By United Press.

The Hague, June 20.—The new German cabinet will be selected tonight, according to a Weimar dispatch received here today quoting "the most reliable authority."

Mathias Erzberger is expected to form the cabinet. Either Count Von Bernstorff or Baron Von Richthofen would be foreign minister, it was said, and Gustav Noske, Dr. Edward David and Herman Mueller would be given portfolios.

The resignation of the Scheidemann cabinet which occurred at 1 o'clock this morning followed a long conference in which Scheidemann and Foreign Minister Brockdorff-Rantzau argued strongly against signing the treaty, the dispatch said. The majority socialists of the national assembly in a party caucus voted 75 to 39 in favor of signing the treaty.

The old cabinet was said to stand eight to seven against signing the treaty.

VERNON TOWNSHIP IS BEING HEARD TODAY

Few Redding Township Taxpayers Appear Before Board of Review Thursday.

This is Vernon township's day for a hearing before the board of review in session at Brownstown. A number of residents from that township were present at the session during the day seeking to have adjustments made in their tax assessments.

Thursday was the day set by the board to hear complaints from Redding township residents. Taxpayers in that township are apparently contented with the assessments considering the fact that only a few complaints were laid before the board for their consideration. Saturday will be Hamilton township's day for a hearing before the board. Mr. Lutherback, a field representative sent out by the state to assist county review boards and enlighten them on legal points that confront them in carrying on their work, spent today with the Jackson county board.

TERMS ARE "UNBEARABLE" BUT NOT "UNACCEPTABLE"

Official Statement Comes From Berlin Following Careful Reading of Allied Reply.

By United Press

Berlin, June 20.—"The government's attitude after reading the full text of the allies' reply to the counter proposals is unchanged," an official statement said today.

"The terms are unbearable and cannot be fulfilled." Considerable significance was attached in political circles here to the fact that the statement did not reiterate that the terms are "unacceptable."

WILSON BACK FROM TRIP TO BELGIUM

President Returns to Paris After Two Days' Visit Through Little Kingdom.

SPEAKS TO PARLIAMENT

Emphasizes Importance of League of Nations Which He Says is "Child of The War."

By United Press

Paris, June 20.—President Wilson returned to Paris today after a visit to Belgium which cemented even more closely the friendship of the little kingdom and the big republic.

In the two days he spent in Belgium, the president was accorded every honor within the power of King Albert and his people. The president of the chamber of deputies, in welcoming President Wilson in the house of parliament yesterday, sounded the keynote of Belgium's whole attitude toward America and Americans. He said:

"Belgium will never forget the help given her by her great sister, America."

Addressing parliament, President Wilson took occasion to emphasize the importance of the league of nations.

"The league of nations is the child of this great war," he said, "for it is the expression of those permanent resolutions which grew out of temporary necessity of this great struggle and any nation which declines to adhere to the covenant deliberately turns away from the most telling appeal that has ever been made to its conscience and to its manhood."

The president declared that "the nation that wishes to use the league of nations for its convenience and forget the service of the rest of the world deliberately chooses to turn back to those bad days of selfish contest when every nation thought first and always of itself and not of its neighbors."

The president announced it was his intention to propose to congress that the American legation in Belgium be raised to the rank of an embassy "as a recognition, as a welcome to Belgium in her new status of complete independence."

Wilson explained that he came to Belgium because he wished to associate himself in counsel with the men he knew had felt "so deeply the pulse of this struggle," and because he realized that Belgium and her part in the war is in one sense, the key of the whole struggle because the violation of Belgium was the call to duty which aroused the nations."

ARMED POLICE ON GUARD AT BROOKLYN, CONN.

Two Patrolmen Seriously Hurt in Rioting by Striking Brass Workers.

By United Press

Waterbury, Conn., June 20.—City guards armed with machine guns patrolled Brooklyn, Conn., a suburb, today to prevent renewed rioting by striking brass workers.

In a riot there last night, two policemen were seriously injured and 35 men and five women were arrested. Police chief Beach asserted women were among the leaders of the rioters.

Mobs assembled about the brass works late yesterday, hurling bricks and brandishing cudgels when police attempted to disperse them. Firemen played water on the crowds. Half a dozen policemen and several firemen were hurt. Patrolman John Moore's skull was fractured and Patrolman Peter Rice was stabbed in the neck and abdomen. Disorders continued until the Waterbury city guard arrived with machine guns.

PRESENT GERMAN CABINET HAS QUIT

Resignation Takes Place to Make Room for New Ministry That Will Sign the Treaty.

REPORT TO BE MADE SATURDAY

Session of the National Assembly Expected to Be Mere Formality for Ratification.

By United Press

Weimar, June 20.—The entire German cabinet resigned early today. President Ebert, who had announced his intention on standing or falling with the Scheidemann ministry, will retain office temporarily and attempt possibly to organize a new cabinet.

The national assembly will meet tomorrow to decide finally as to acceptance or rejection of the peace treaty.

The situation among the various governmental bodies here today appeared to be as follows:

Peace delegation—unanimously opposed to acceptance of the terms.

Cabinet—Majority inclined against signing.

National assembly—about evenly divided at present with a growing tendency toward acceptance.

The peace committee of the national assembly met late today and although the assembly as a whole will have the final vote on acceptance or rejection of the treaty the recommendation of the committee was expected to have an important influence on the remainder of the assembly.

The industrial situation is becoming more tense and reports have been received here that a general strike is impending in Berlin. The government claims the independent socialists are striving to force acceptance of the treaty through a nation-wide strike starting in the capital.

A dispatch from Essen today reported an unsuccessful attempt to establish a soviet republic in the Ruhr industrial region. Communists, it was said, failed in a desperate effort to occupy Hamborn and Sterkrade. Both towns are under martial law and government forces there have been reinforced.

PHELAN WANTS JAPANESE IMMIGRATION BARRED

Next War on Will be on The Pacific Coast, California Senator Declares.

By United Press

Washington, June 20.—Demanding legislation forever barring Japanese immigration Senator Phelan, California, today warned America to be ready for "war on the Pacific." Appearing as a witness before the house immigration committee, Phelan appealed to congress to save the western states from economic death at the hands of the "huns of the east."

"The sore spot of the world is the orient," Phelan said. "It is a place to be watched for eventualities. Future wars will be on the Pacific and not on the Atlantic ocean. The huns have come, the huns of the east. Those Japanese are not to be compromised with; they must be driven out like a plague of locusts which they equal in economic destructiveness."

All the Japanese seek is money and there has been no limit to which they would not go to increase their world stores, the California senator said. Replying to questions relative to Japanese encroachment in Mexico and South America, Phelan said:

"They are buying oil leases in Mexico. They are buying great tracts of land, they are a part and a parcel of the Carranza machine. Some day the Mexico problem and the Japanese will be one and the same."

WHAT BOLSHIEVISM
MEANS TO RUSSIA

Major E. Lowry Humes Gives Summary of The New Form of Government.

Both friends and foes of Bolshevism use the term so loosely that the world should be grateful for the clear, concise description of both its aims and its practices in Russia, written by Maj. E. Lowry Humes, counsel for the subcommittee of the senate judiciary committee, which has been conducting an elaborate inquiry, hearing Russians of all factions and travelers of every shade of opinion, examining the constitution, edicts and laws of the Soviet Republic and the local soviets and studying everything in the diplomatic archives of the American and British governments relating to Russian affairs. Denying the truths the American Declaration of Independence proclaimed as "self-evident," the Bolsheviks refused to recognize any rights as inalienable and they respect neither the right to life, liberty nor property. Not only have they practiced confiscation of all property and repudiation of debts, but they provide against the accumulation of homes or property in the future. All who are physically capable are to work at the places assigned them and when they become old they must depend on pensions, even as children are pensioned until old enough to work. Maj. Humes reviews the situation in a manner surpassing any general survey of the situation that has yet appeared in print and then condenses it into the following "program of Bolshevism."

1. The repudiation of democracy and the establishment of a dictatorship.
2. The confiscation of all land and the improvements thereon.
3. The confiscation of all forests and natural resources.
4. The confiscation of all live stock and all agricultural implements.
5. The confiscation of all banks and banking institutions and the establishment of a state monopoly of the banking business.
6. The confiscation of all factories, mills, mines and industrial institutions, and the delivery of the control and operation thereof to the employees therein.
7. The confiscation of all churches and all church property, real and personal.
8. The confiscation of all newspapers and periodicals and all mechanical facilities and machinery used in the publication thereof.
9. The seizure and confiscation of all public meeting places and assembly halls.
10. The confiscation of all transportation and communication systems.

"TODAY, I'M WELL"

Says Jackson Lady, And Thanks Cardui For Her Good Health.

Jackson, Ohio—Mrs. Alice Scirlock, of this place, writes: "About three or four years I was in a very weak state. I suffered with my sides. They were sore and it seemed when I would lay down at night something seemed like it twisted and pulled in my sides.

I could not rest nights, I was so very nervous. At... time I was worse than others, the pain was much more severe. I had sick headaches. My limbs would get numb and this was disagreeable...

I doctored myself and tried different doctors... I was very frightened of operations and felt I could not go through one, I had gotten down so nervous. I read of Cardui and decided to use it. I took 11 or 12 bottles. Today I'm well and do not have any nervous trouble. I am able to do my own work and feel so strong and well. My sides are all right, and I know Cardui did it. I certainly am stronger than in a long time."

If you suffer from any of the troubles so common to women, try Cardui. Thousands of women give Cardui credit for their good health. NCB-10

STREET LIGHTING.

Nothing could be done at this time to improve the appearance of this city and to advertise it to better advantage than the installation of a modern post lighting system in the business district. At night the streets in the central part of the city where the traffic is heaviest, are gloomy and uninviting. The old type are lamps swung high above the streets, flicker desperately in their effort to remove the shadows of night.

The visitor or stranger who comes here for a short time always inspects

the business district first and his impression of that district is his general impression of the entire city. Any form of advertising the city, no matter how attractive it might be, would lose its effect when the darkened streets in the central part of the city are visited.

WAR SERVICE
FOR
WOMEN
REQUIRES HEALTH
AND STRENGTH

When was there ever a time when women were doing so much for mankind—and when was the health and strength of our women more vital to the very existence of our country. We can safely say **Never**. Their sacrifices, their industry, their courage, their patriotism is beautiful beyond words of description. But what of the poor one who wants to help but cannot because she is oppressed by some feminine disorder. To such we recommend with utmost confidence our successful old remedy and insert following a letter from one who proved its value.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 South 14th Street, Newark, N. J.

The reason this famous root and herb remedy was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition.

Acres of Crops.

By United Press

Anderson, Ind., June 20—Army worms have destroyed or damaged 10,000 acres of grain crops in Madison county, H. S. Agster, county agricultural agent, estimated today. The loss, he said, will aggregate \$250,000. Where rye and timothy fields were attacked the destruction was virtually complete. Wheat is showing some effects of the invasion and late corn is being ruined on many farms.

SUNDAY SCHOOL LESSON

LOVE

1 Cor. 13

GOLDEN TEXT.—I will praise thee, O Lord my God, with my whole heart.—Ps. 86:12.

ADDITIONAL MATERIAL.—Lev. 19:18; Deut. 6:4, 5; John 10:27, 3:16; 1 John 4:7-21.

PRIMARY TOPIC.—How to Show Our Love.

JUNIOR TOPIC.—Whom We Should Love and How.

INTERMEDIATE TOPIC.—The Greatest Thing in the World.

SENIOR AND ADULT TOPIC.—The Strongest Bond Between Men and Women.

The best gift of the Holy Spirit is the love of God shed abroad in our hearts. Not all can teach, preach, work miracles, speak with tongues; but the gift of love is within reach of all. The "more excellent way" of the last verse of chapter 12 is the way of love. Love is not a mere sentiment or emotion, but a mighty dynamic which transforms the life, expressing itself in practical service to men.

I. The Pre-eminence of Love (vv. 1-3).

It transcends:

(1) Speaking with tongues. For men to possess the loftiest eloquence, to be able to speak in other languages, and to be lacking in love is to be as sounding brass and a tinkling cymbal. Pleasing and powerful speaking is desirable, but to love is better.

(2) The gift of prophecy. To disclose the events of the future, to be able to unfold all mysteries—of nature and providence—is good but to love is better.

(3) Faith of the most vigorous kind. Such as would remove mountains.

(4) Philanthropy of the most generous sort, prompting one to surrender all earthly goods for the sake of the poor.

(5) Heroism which leads even to martyrdom without love is profitless.

II. The Attributes of Love (vv. 4-7).

1. It is long-suffering and kind. It means not only to bear long but to be kind all the while. Patience is a remarkable virtue. It is much easier to bear long than to show the spirit of

kindness all the while.

2. It is free from envy. Those who love are free from that envy which is engendered because of the good, or the success of others.

3. It is free from empty boasting. Love has as its supreme aim the doing of good to all and does not seek their admiration and applause.

4. It is well behaved. Love is polite and mannerly. It knows how to behave at all times.

5. It is unselfish. Love seeks the good of others and is forgetful of self.

6. Does not give way to passion. It is not quick tempered. It is not easily aroused to resentment.

7. It takes no delight in evil; does not impute evil motives to others; is not suspicious, but forgiving.

8. It rejoices in the truth. It sympathizes with that which is true and has a common joy with it.

9. It beareth all things—that is, it incases itself with its own mantle and shuts all evil out.

10. It is trusting, hopeful and firm.

III. The Permanence of Love (vv. 8-13).

Prophecy, as prediction, will be fulfilled; prophecy, as teaching, will be brought to an end in the day when teaching is not needed. "And they shall not teach every man his neighbor, and every man his brother, saying, Know the Lord: for all shall know me, from the least to the greatest" (Heb. 8:11; cf. Jer. 31:34). Tongues shall cease, for as the languages of earth were caused by God's judgment for sin so shall Christ's redemption bring the nations back to one tongue. Knowledge shall be done away with by a wider and nobler intelligence. The twilight shall be lost in the day. Childhood shall be lost in maturity, for at Christ's coming we shall see him face to face and be like him. Love will always abide, for God is love.

METHODIST CENTENARY CELEBRATION IS OPENED

Observance of One Hundredth Anniversary of Church's Missionary Work.

By United Press

Columbus, O., June 20.—This was the opening day of the Methodist Centenary Celebration. Until July 13th the gates of the exposition grounds will remain open to welcome the hosts of Methodism and their friends. It is regarded as the most ambitious demonstration of missionary effort in home and foreign fields ever attempted. With pageantry, with music, with life plays representing the daily existence of strange peoples in far away lands, with replicas of off far off communities and with innumerable features and exhibits, the Centenary Celebration emphasizes the one hundredth anniversary of the Methodist Church's entry into the mission field.

It is an all American exposition. The Methodist Church and the Methodist Church South have joined in a demonstration of the strength of their denomination. Eight exhibit buildings house the exhibits and life plays. In the Coliseum, seating 7,500 persons, the pageant, "The Wayfarer," is to be presented nightly excepting Sunday, while a children's pageant, "The Children's Crusade," is to be presented two afternoons each week.

Seventeen thousand participants have been enlisted to make this gathering a success. A choir of 1,000 voices has been drilled for the pageant, "The Wayfarer," which has also an orchestra of seventy-five pieces and the aid of the \$50,000 pipe organ, especially constructed. The children's pageant has duplicate choruses of 500 voices each. In addition there is the Centenary Celebration Trombone Choir of one hundred trombones, the only organization of its kind in existence.

Mrs. Harriett Bruce, of North Vernon, Mrs. Ella West and Mrs. Louisa Dougle, of Aurora, spent Thursday in this city the guests of Mrs. Daisy McFadden.

New Plate Glass Will Replace One Demolished At Laupus Jewelry Store—New Frame.

J. G. Laupus, proprietor of the jewelry store at the corner of Chestnut street and St. Louis avenue, where the automobile was driven through the display window Thursday afternoon by Miss Siba Storey, stated this morning that \$200 would cover his loss. Several valuable pieces such as cut glassware, lavalliers, watches and other articles on display in the window were damaged. Immediately following the accident carpenters set to work closing the window with a wooden frame. A new plate glass has been ordered from Cincinnati and is expected to be here the first of next week.

low when the car was taken. At Scottsburg, it is stated, Harriek had the tank filled and then speeded away. The marshal was close to the garage and said he would overtake the boy if a machine was furnished for him. The automobile was procured and the chase was started.

Marshal Walker overtook the machine at a cross roads near Farmington, as Harriek was confused and did not know which road to follow. He said that the machine belonged to his father and he was taking it to him in Indianapolis. Walker doubted the boy's story and decided to question him further upon arrival here. After answering a few questions the lad realized that his explanation was not holding together in all details and then, according to the police, he confessed the machine was stolen.

After the lad was brought here Officers Marion Weddell and Peter Sensback telephoned to Louisville to ascertain if a machine had been reported stolen. Later they were informed that the machine in Harriek's possession answered the description of one reported missing in Louisville.

While bugging potatoes a few days ago a Mitchell man knocked one of the bugs on the ground and in picking it up unearthed a gold dollar dated 1852.

Mrs. Emma Weddle went to Hayden Thursday afternoon to visit her daughter, Mrs. Wm. Walker.

DECLARES IT TO BE WELL NAMED

"Trutona Is Truly The Perfect Tonic," Mrs. Lucy Johnson Asserts.

Vincennes, Ind., June 19—"Trutona is truly the Perfect Tonic," Mrs. Lucy Johnson, a well known Vincennes woman of 822 North Tenth street, said recently. "It is without a doubt the One best tonic."

"I've had a very bad case of stomach trouble for the past three months. Rheumatic pains in my arms caused me suffering, too. I was almost afraid to eat anything for fear of bad after effects. Belching and a sour taste bothered me after meals. My system generally seemed weak and run down."

"One bottle of Trutona has improved my health and strength remarkably. The food I eat tastes more natural now, and I eat a lot, too. The pains in my stomach and belching are considerably relieved, also. The rheumatic pains in my arms have been relieved. I hope others suffering as I did will give Trutona a trial."

As Mrs. Johnson says, for the treatment of stomach, liver and kidney troubles, nervousness and the like, as well as a reconstructive agency, Trutona is without a peer.

Trutona is now being introduced and explained in Seymour by W. L. Federmann, Druggist.

CHAPTER XXVI.

A Floating Coffin.

The laboring boat rested so low in the water it was only as we were thrown upward on the crest of a wave that I could gain any view about through the pallid light of the dawn. It was all a desolate, restless waste in the midst of which we tossed, while above hung masses of dark clouds obscuring the sky. We were but a hurtling speck between the gray above and the gray below.

The first thing needing my attention was the food and water. I crept forward cautiously and soon had Sam busily engaged in passing out the various articles for inspection. Only essentials had been chosen, yet the supply seemed ample for the distance I believed we would have to cover before attaining land. But the nature of that unknown coast was so doubtful I determined to deal out the provisions sparingly, saving every crumb possible. The men grumbled at the smallness of the ration, yet munched away contentedly enough, once convinced that we all shared alike.

"All right, lads," I said cheerfully. "Now we understand each other and can get at work. We'll divide into watches first of all—two men aft here and one at the bow. Watkins and I will take it watch and watch, but there is enough right now for all hands to turn to and make the craft ship-shape. Two of you bail out that water till she's dry, and the others get out that extra sail forward and rig up a jib. She'll ride easier and make better progress with more canvas showing."

The men gradually knocked off work and lay down, and finally I yielded to Dorothy's pleadings and fell into a sound sleep. It seemed as though I scarcely lost consciousness, yet I must have slept for an hour or more, my head pillowed on her lap. When I awoke Schmitt was again at the steering paddle, and both he and Dorothy were staring across me out over the port quarter.

"What is it?" I asked eagerly, but before the words were entirely uttered a hoarse voice forward bawled out excitedly:

"There you see it; straight out agin that cloud edge. It's a full-rigged schooner."

"Ay," boomed another, "an' headin' straight cross our course astern."

I reached my feet, clinging to the mast to keep erect and, as the boat was again flung upward, gained clearly the glimpse I sought.

"Ay, you're right, lads!" I exclaimed. "It's a schooner, headed to clear us by a hundred fathoms. Port your helm, Schmitt—hard down, man. Now, Sam, off with that red shirt; tie it 'on the boat hook and let fly. They can't help seeing us if there is any watch on deck."

We swept about in a wide circle, headed straight across the bows of the

We Swept By in a Large Circle.

on-coming vessel. All eyes stared out watchfully, Sam's shirt flapping above us, and both Watkins and Schmitt straining their muscles to hold the plunging quarter-boat against the force of the wind. A man forward on his knees growled out a curse.

"What's the matter aboard there?" he yelled. "Did yer ever see a boat yaw like that, afore? Damn me, if I believe they got a hand at the wheel."

The same thought had leaped into my mind. The schooner was headed to pass us on the port quarter, yet yawing so crazily at times as to make me fearful of being run down. I could perceive no sign of life aboard, no signal that we had been seen. The sight angered me.

"Stand by, all hands," I cried desperately. "We'll board whether they want us or not. Slip across, Miss Fairfax, out of the way. Now, Watkins, run us in under those fore-chains; easy man, don't let her strike us. Lay hold quick, lads, and hang on for your lives. Give me that end of rope—ready now, all of you; I'll make the leap. Now then—hold hard!"

It was five feet, and up, my purchase the tossing boat, but I made it, one hand desperately gripping a shroud, until I gained balance and was flung inboard by a sharp plunge of the vessel. My head was at a level with the rail, yet I saw nothing, my whole effort being to make fast before the grip of the men should be torn loose. This done, I glanced back into the up-turned faces below.

"Hand in slowly, lads; yes, let go, the rope will hold, and the boat ride

The Joy of Motherhood Told

Women Tell How They Made Event
One of Great Happiness.

In every part of the land there are women who tell how, through the application of Mother's Friend, they entirely avoided the suffering usually incident to motherhood. They relate in no uncertain terms how from its use the days were made bright and cheerful and the nights calm and restful, how the crisis was passed without the usual suffering experienced when nature is unaided, and how they preserved their health and strength to devote it to the rearing of their children and to the things life holds for them.

Mother's Friend is a most penetrating remedy, prepared especially for expectant mothers from a formula of a noted physician. Strain upon the ligaments is avoided, and instead of a period of discomfort and constant dread it is a season of calm repose. The hours at the crisis are less, and Mother's Friend enables the mother to retain her natural grace, and her skin is not cracked and does not become hard or disfigured.

Write to the Bradford Regulator Company, Dept. L, Lamar Building, Atlanta, Georgia, for their Motherhood Book, and obtain a bottle of Mother's Friend from the druggist today.

How Every Woman Can Quick-

Lovely Teeth,
Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

safely through. Let a couple of men come up till we see what's wrong with the hooker—the rest of you trail on. Let Schmitt and Sam come with me."

I helped them clamber up and then lifted my body onto the rail, from which position I had a clear view of the forward deck. It was inexpressibly dirty, yet otherwise ship-shape enough. Nothing human greeted me, and conscious of a strange feeling of horror, I slipped over onto the deck. The next moment the negro and Dutchman joined me, the former staring about wildly, the whites of his eyes revealing his terror.

"My Gawd, sah," he ejaculated, "Ah done know dis boat—it's shore de Santa Marie. Ah's cooked in dat galle. She was a slaver, sah." He sniffed the air. "A kin smell dem niggers right now, sah. Ah suah reckon dars a bunch o' ded ones under dem hatches right dis minute."

Schmitt's hand fell heavily on my sleeve and I glanced into his stolid face.

"I just bet I know vat wus der trouble."

"What, man?"

"Cholera," he whispered; "ve haf boarded a death ship."

WILL RETURN THE
LADY IN EXCHANGE
FOR THE TREASURE

CRUELY printed in pencil on a piece of dirty brown paper, and stuck there with a sailor's rusty knife, was this message. And well they knew what it meant. The girl they had sought for days and believed to be lost—now they knew her to be worse than lost.

Should he give up the treasure that he and his party—some of whom had paid the supreme price—had fought and repeatedly risked their lives for; should he give up this wealth of gold and jewels for the girl he adored, or trust to mercy of his enemies for her safety?
